

## Legends of Andor, foamboard insert plans.

All elements are made from 5mm foamcore.

Those plans are inspired from the ones from **jwreschnig** :

<https://www.boardgamegeek.com/geeklist/115468/item/3764838#item3764838>

Made a few changes compared to jwreschnig's version,  
in order to be able to place all the additional Legend cards printed from the official web site.
